

## Civil Designer Software and Online Training Specifications (2018)

<b>Civil Designer 8.x Software System Requirements</b>		
	<b>Minimum</b>	<b>Recommended</b>
CPU	Core 2 Duo	Core i7
RAM	8GB	16GB
HDD	500MB	1TB
Video	1024x600	1920x1080 or better supporting at least DirectX 11 (11.1 or later preferred)
OS	Windows 10	Windows 10 (64 bit) or later.

<b>GoToTraining and GoToMeeting Online Training Requirements</b>	
Internet Connection	1 MBps or better (broadband recommended)
Microphone & speakers	USB Headset recommended, alternatively separate speakers and mic and the communication is via your PC audio and mic.
Webcam	Optional
Monitors	Two pc screens are recommended so that you can work on your training project while following the trainer.

Before training begins you will receive a link via email inviting you to join the meeting/training. When you click on the link it installs a small app which plugs into your browser enabling you to participate on the shared interface

**Note:** If you would like to familiarise yourself with the training platform in advance of the training please go to <https://www.gotomeeting.com> and try out the free demonstration meeting.
